

Star Wars: Galaxy of Heroes

The Factions

- This shows where you obtain characters for all of the game's *top-level* factions (so, e.g., the 501st is within Galactic Republic). Factions are alphabetized in the document.
- Within each faction, characters are sorted roughly in order by how quickly they can begin to be obtained. This can help players to see faction-by-faction who is available at different stages of the game. It can also help to locate the best farming/store location(s) for a character and to farm characters and ships from one faction in parallel using different currencies.
- Characters that require events to obtain or are not yet obtainable with tokens are highlighted at the end of each faction list.
- Additional icons denote when a character has a ship and/or is individually needed to obtain a character or ship via a special event.

Droids, the Empire (incl. Imperial Troopers), Ewoks, the First Order, the Galactic Republic (incl. the 501st and Clone Troopers), Jawas, Jedi, Nightsisters, the Old Republic, Rebels (incl. Phoenix, Rebel Fighters, and Rogue One), the Resistance, Scoundrels (incl. Bounty Hunters and Smugglers), Separatists (incl. Geonosians), Sith, the Sith Empire, Tusken, and other/unaligned
